

COMPETITION

Our surfaces offer excellent consistency, security and support, boosting the confidence of competitors.

WE RECOMMEND

1. **Cushion Track Premier**
2. **Premier Track**

Competition grounds can see anywhere from 50 to 250+ horses training and competing on their surface each day, and the surface in place needs to perform consistently from the first to the last rider.

Providing a good footing and excellent consistency, our surfaces boost the confidence of competitors, encouraging riders to return to the arenas they're installed in.

Suitable for use in all weathers, providing security and support even after heavy footfall and high-impact use on a daily basis, our range includes low-maintenance, dust-free surfaces which are well suited for use across all disciplines, accommodating the complex requirements of each.

Our various comprehensive maintenance packages are offered as part of an annual contract and will help to extend the lifespan of your surface and ensure it continues to perform at an optimal level. We also offer our maintenance services on competition during which our team will work the surface when required to maintain consistency.

“

It's a pleasure to work with the Equestrian Surfaces team. They've always been very accommodating and managed to meet our requirements, and the delivery times they estimate are always accurate. Eight years on, our surface is still performing well.

John Jewitt, Rectory Farm

Benefits of our surfaces

- ✓ Low-maintenance and dust-free
- ✓ Providing even footing and consistency
- ✓ Well suited to multi-discipline use
- ✓ Optimised performance
- ✓ Suitable for all-weather use
- ✓ Promoting rider confidence

“

I had ridden on surfaces supplied by Equestrian Surfaces at a number of competitions, and had always noticed the improved level of support their surfaces offered. Once the works began, the project ran smoothly, and we ended up with an excellent surface which offers no trouble even in the worst weather conditions.

Alex Limes, Bullens Farm
